

Help Leeds Mind plan for the future

Every 3 years, Leeds Mind puts together its plan for the future. This includes looking at where we are now, why we exist and what values we live by. We call this our strategy.

We believe our plans should be based on what our community wants and needs from us – that is the people who use our services, our staff and volunteers.

We also want to hear from people who haven't used our services before, to find out what we could be doing to reach more people across Leeds and West Yorkshire.

That's why we're asking you to give your ideas.
